

THUNDER DIGESTIVE

SUPPORT THEIR BELLY,
SUPPORT THEIR BLISS

**FOR DOG
DIGESTIVE
HEALTH**

Thunder Digestive consists of 5 lactobacilli species, pumpkin powder, fructooligosaccharides, and DigeZyme®. Thunder Digestive functions to regulate the dog's digestive health.

Key Ingredients

5 Lactobacilli species

- Consists of *Lactobacillus plantarum*, *Lactobacillus salivarius*, *Lactobacillus acidophilus*, *Lactobacillus rhamnosus*, and *Lactobacillus paracasei*
- The 5 Lactobacilli species are able to change the pH of the digestive system to suppress pathogenic bacteria growth

Pumpkin Powder

- A source of fibre
- Has been said to alleviate digestive issues like constipation

Fructooligosaccharides

- Acts as a prebiotic
- Stimulates growth of non-pathogenic bacteria

DigeZyme®

- Contains amylase, cellulase, lactase, lipase, and protease (enzymes)
- Allow optimal digestion of nutrients to protect the digestive system through easy absorption of nutrients

Overall Benefits of Thunder Digestive

- Support digestive health and gut health of dogs
- Promote healthy immune system in dogs
- Reduce itching and hot spot in dogs

Recommended for:

- Dogs with digestive issues
- Dogs with chronic health conditions
- Dogs that are highly stressed
- Dogs with poor appetite

Overall Uniqueness

- Provides **10 billion CFU** per serving
- **Multi-focus approach** to health benefits
- Use of **trademarked ingredient** - DigeZyme®
