

THUNDER FLEXI

PAWSITIVELY AGILE:
BOOSTING THEIR
JOINT HEALTH

**FOR DOG
JOINT AND
BONE
SUPPORT**

Thunder Flexi consists of 7 ingredients, namely glucosamine, chondroitin, methylsulfonylmethane, vitamin E, zinc, turmeric extract, and fructooligosaccharides. Thunder Flexi functions to support bone and joint health of dogs.

Key Ingredients

Glucosamine

- A naturally found compound in cartilage
- Prevents cartilage breakdown

Chondroitin

- A component of cartilage
- Helps cartilage absorb fluid and produces new cartilage

Methylsulfonylmethane

- Naturally existing component in animals
- Commonly used in the past for treating joint pain and discomfort

Vitamin E

- A potent lipid soluble antioxidant
- Affects the bone remodeling process

Zinc

- Required for normal growth of skeletal system
- Has a role in bone homeostasis

Turmeric extract

- Contains curcumin, the major bioactive compound
- Previously used to promote joint health

Fructooligosaccharides

- Promotes higher peak bone mass
- Maintains bone mass

Overall Benefits of Thunder Flexi

- Promote optimal bone and joint health of dogs
- Rebuild and improve dogs' joint cartilage
- Strengthen joint structure and prevent joint degeneration in dogs

Recommended for:

- Senior dogs
- Active dogs
- Dogs with joint issues
- Maintenance of joint and bone health of dogs

Overall Uniqueness

- Use of **active ingredients** (turmeric extract, glucosamine)
- Comprehensive approach to blend of ingredients (**7-in-1**)
- **Multi-function** of protecting joint and bone health alongside preventing joint degeneration

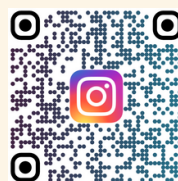

Feeding Instructions

Once daily mix with meals

- Below 5kg: Half scoop
- 5 - 15kg: 1 scoop
- Above 15kg: 2 scoops
